President Wilson will make no move to rescind the war time prohibition act until peace has been declared formally, it was stated officially at the White House.

COAL OPERATORS MAKE FINAL OFFER TO MINERS

(By Associated Press)
Washington, Nov. 21—The bituminous coal operators served what was practically an ultimatum on the coal miners' representatives here today, telling them yesterday's offer of 15 cents a ton and 20 per cent a day wage increases was the utmost that could be given. The miners went into conference immediately to consider the offer.

There was considerable doubt whether the proposal would be accepted. Before entering the conference Acting President Lewis reiterated that the operators' offer is inadequate and unacceptable. Prior to the morning conference Lewis indicated it would be given further consideration by the miners if it could be enlarged to cover details of working conditions and allowances for dead work but at the conclusion of the conference he said the miners had reached an agreement and would go into a joint conference with the operators this afternoon with no definite response to the operators' proposal.

ARMY HEADS FIGURED ON INVADING MEXICO

But Estimate of Three Years Ago
Wouldn't Be Required Now,
Says Department

(By Associated Press)
Washington, Nov. 21—State Department officials discussing the Mexican situation today disclosed that three years ago the Army General Staff estimated an army of 450,000 and three years time would be required for complete intervention in Mexico by the United States. Officials did not say what the present estimate of the General Staff was, but it is understood it would be less than that prepared before the world war, due to development of new instruments of warfare and the enormous increase in American war material, especially motorized transports, airplanes and artillery.

Discussing the case of American Consul Agent Jenkins, officials said because of the Mexican government's laxity in trying to put down the revolution it failed to give proper protection to Jenkins and consequently he might have grounds for a claim against Mexico for the ransom money paid his bandit captors.

Much interest naturally has been manifested in this suit, and its outcome will be eagerly followed.

OLDHAM MAY BE A CANDIDATE

For Congress In 7th If Cantrill
Tries For Senate And Cohen
Is Only Opponent

Col. Ronald C. Oldham was over from Winchester, a short time on business Thursday, and many friends inquired his intentions regarding his prospective candidacy for Congress in the seventh district in the event that Congressman Cantrill makes the race for the U. S. Senate.

Col. Oldham said that the first he had heard of such a thing was the mention that some of his newspaper friends have been making of the matter. He said, however, that in the event Congressman Cantrill does make the race for senator, and Mat Cohen is the only candidate announced for congress, in all probability he will make the race against him.

Col. Oldham made a phenomenal race for the democratic nomination for lieutenant governor, and was barely nosed out in an eye-lash finish. He has a splendid organization of friends in the seventh district to start with and should he become a candidate for congress, would have a big following to start with.

Cantrill Won't Oppose Beckham
Announcement has been made made at Lexington that Congressman J. C. Cantrill has made known in a letter to State Commissioner of Agriculture Mat S. Cohen, that "under present conditions he is not figuring on entering the race for the United States Senate" and that it is his purpose to stand for renomination and reelection in 1920 as representative from the Seventh Congressional district. This will subside reports that Senator J. C. W. Beckham will be opposed next year for renomination by Congressman Cantrill.

Richard C. Stoll's statement in Washington that Judge Charles C. Kerr, of Lexington, will be a candidate for the republican nomination for United States Senator met with no confirmation from Judge Kerr himself. He is making no announcement of his intentions, but his friends aver that he is not averse to the nomination if a party contest could be avoided.

Strode Will Case Contested

Illness of Mrs. Irene B. Strode, defendant in a suit filed by W. D. Strode, against the authenticity of the will of J. W. Strode, under which she is executrix prevented further progress at Lexington Thursday. Judge Charles Kerr continued the case until December 2. The suit was brought to contest the probated will of J. W. Strode, husband of Mrs. Irene B. Strode. Approximately \$50,000 is involved.

DAUGHTER HAD TO QUIT WORK MOTHER SAYS

Inactivity Would Have Lasted
Longer. Had Not Trutona
Brought Aid

Louisville, Ky., Nov. 20—Because it has relieved her daughter of troubles which kept her from her work for five long months, Mrs. Josephine Brown, a well known Louisville woman of 721 Washington street recently made the following interesting statement regarding Trutona, the perfect tonic:

"My daughter has been suffering with stomach trouble and nervousness for several months. In fact, the trouble became so severe that she couldn't work for five months. It seemed that everything she ate would sour in her stomach, causing gas formations and a bloated feeling. The gas seemed to form around her heart, causing her much pain.

"My daughter's nerves were so unstrung that she could hardly sleep at night and she would get up in the mornings almost as tired as when she went to bed. But Trutona has steadied her nerves and she's at last able to rest well at night. This medicine has relieved her of the indigestion, too, and her bowels are regular now. We think Trutona is a great medicine."

Trutona is now being introduced and explained in Richmond at H. L. Perry & Son's.

Leaders in industry, education and the church will participate in the convention. How to make the Y. M. C. A. an agency for keeping young men in country districts where they can help to produce the food of the nation and the world is one of the important questions for consideration. This will be discussed by Colonel Clarence D. Ousley, Assistant Secretary of Agriculture, who will endeavor to explain how to make country life attractive.

Other questions to be considered include old age pensions for paid workers of the association, for which it is proposed to raise \$3,740,000, extension of the association to other lands; possibility of employing women secretaries; stabilization of the men in industry; stamping out of Bolshevism; assimilation of the men of the armies into civilian life, and similar problems. The work of Americanization in industrial centers, including the use of moving pictures in the plan, also will be given attention.

But Will Say Nothing Before
Then About Rejection

(By Associated Press)

Before Congress convenes, it was said, administration Senators will confer and possibly the republican mild reservationists will participate with a view of working out an acceptable compromise on reservations.

To Ratify It At Paris Dec. 1
Paris, Nov. 21—The supreme council today agreed on December 1st as the date when the German peace treaty will be formally ratified.

U. S. Has No Part In It Now
Washington, Nov. 21—The Supreme Council's action fulfilled the expectation of administration officials, who believed after the American Senate failed to ratify the treaty Europe would not wait longer. The effect of the promulgation of peace, the State Department holds, will not directly affect the legal status of the war between the United States and Germany but will mean the important work of rehabilitating Europe will not be participated in by this country. Besides bringing the League of Nations, formally into existence, the event will bring into force the prodigious list of obligations which must be performed by Germany.

Repeat Dry Laws, Then!

That thin persons live longer than fat persons.
That the moderate use of alcoholic beverages is not likely to lessen life.
That the Middle West is the most healthful locality of the United States.
That the extreme South is the most unhealthy section of the United States.
